

F

F REGULATOR VALVE

Reliable components such as solenoid valves, water meters, pressure regulators, and filters are all available from Dramm.

F

G BARBED NOZZLES

The JetFog Nozzle and other nozzle options are available with a barbed base. This is great for a poly tube installation. All you do is punch a hole and insert the nozzle. The barbed design ensures a sealed fit. Pressure compensated with built in check valves.

F

H POLYRAIL & PARTS

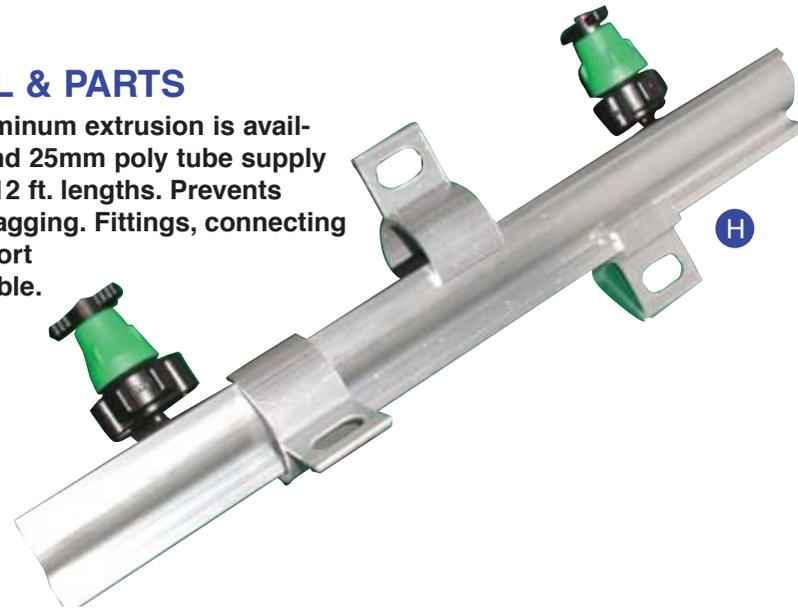

The PolyRail aluminum extrusion is available for 16mm and 25mm poly tube supply lines. Standard 12 ft. lengths. Prevents poly tube from sagging. Fittings, connecting bands, and support pieces are available.

F

B

H

A POLYTUBE FITTINGS

Dramm offers all the components required for a fast and simple polytube waterline installation.

B DROP NOZZLE

Drop nozzle assemblies are available for installations where structural obstacles like trusses or beams may be in the way.

C THREADED NOZZLES

JetFog nozzles and other nozzle types are available with a threaded base where a PVC main water line installation is preferred.

All require low pressure and are pressure compensated with built in check valve.

D PVC FITTINGS

Dramm offers all PVC fittings and clamps necessary for a clean and neat JetFog PVC water line installation.

E CONTROL BOARD

You can purchase from Dramm a prebuilt control board. Solenoid valve wiring to Mist Time controller and main board plumbing is all complete. All you have to do is connect your water lines and enter your settings. FAST and EASY.
