

Nutrient Field Crop and Garden Formulas

Foliar Nutrient Package plus insect suppression

20 gal per acre application

14 gal	Water
1 gal	Drammatic “One”
1 gal	AER SP-1
1 gal	K-Sulfate
2 gal	Chilean Nitrate
1 qt	AER Organic Trace Pack
4 oz	Neem Blend 45 EC (neem/karanja emulsified)
2 oz	Citrex (Add Citrex last to the tank mix)
optional	1 # Magnesium Sulfate (Epsom salt) add when mag uptake is low
optional	Mycotrol – Beauverria Bassiana fungi
optional	2 oz Garlic Oil w/ 24% Sulfur (Repell insects and has Fungicidal properties)

Note : ---- K-Sulfate, Chilean Nitrate and Org. Trace Pack can be pre-blended

Caution: Mixing any other of the biologicals prior to application is not advised

Solution should have a ph of 5.8-6.0. To lower ph add Dramm Fish to raise ph use baking soda

Insect Repellant/Pheromone Formula

20 gal per acre application

20 gal	Water
1 qt	Cedar Gard

Note:

presently we do not know enough information about the Cedar Gard to know if we can mix with other organic inputs and not disrupt the pheromone values
