Agitation/Aeration Bucket

Dramm’s Agitation/Aeration Bucket provides a thorough mixing of any solution. Perfect for use with an injector, the Agitation/Aeration Bucket can keep water soluble fertilizers, fungicides, insecticides and PGRs in suspension.

With a flip of a switch, agitation turns to aeration. Air is introduced into the passing stream, keeping dissolved oxygen at saturation levels. Use this feature when agitating nematodes or other organisms requiring oxygen.

**Specifications**

- **5 gallon Capacity**
- **0.7 gpm Flow Rate**
- **Eductor for Increased Flow**
- **Aeration or Agitation**
