DRAMM

PFC #2 BLEND

pulsFOG®

CLEANING SOLUTION

CLEANING

Always clean the Pulsfog unit after every use. Turn the machine off and allow it to cool for at least 15 minutes. Remove solution tank and rinse with water. If wetttable powders or flowable pesticides were used, the inner resonator must be cleaned using the extension handle and brush. Elevate rear end of Pulsfog unit (barrel will point towards the ground.) Open dosing nozzles No. 149, place chemical suction line into cleaning tank (screw cap on), attach orange hand pump to cleaning tank, open chemical fog tap, pump PF-C cleaning solution through the lines. Cleaning solution will run out of No. 149 dosing nozzles (on the outside of the barrel) onto the ground. A minimum of 10 pumps will clean the lines.
